A Help Button Should Go Where You Go!

To be truly independent, your personal emergency device needs to work on the go.

MobileHelp® allows you to summon emergency help 24 hours a day, 7 days a week by simply pressing your personal help button. Unlike traditional systems that only work inside your home, a MobileHelp medical alert system extends help beyond the home. Now you can participate in all your favorite activities such as gardening, taking walks, shopping and traveling all with the peace of mind of having a personal alert system with you. MobileHelp, the "on-the-go" help button, is powered by one of the nation's largest cellular networks, so there's virtually no limit to your help button's range.

No landline? No problem! While traditional alert systems require a landline, with the MobileHelp system, a landline is not necessary. Whether you are home or away from home, a simple press of your help button activates your system, providing the central station with your information and location. Our trained emergency operators will know who you are and where you are located. If you're one of the millions of people that have waited for an alert service because it didn't fit your lifestyle, or settled for a traditional system even though it only worked in the home, then we welcome you to try MobileHelp. Experience peace of mind in the home or on the go.
